 **CAD**star

CS.Nova / CS.Nova^{Pro}

Let yourself
be inspired
from a
completely
new level
of precision,
comfort and
efficiency.

The logical next step
in intraoral scanning is
here. Finally!

Live View Touch Screen

This display is not just for playing.

- 📷 Intraoral Camera*
- 📡 Live Scan-View*
- 👤 Case Switch
- 🕸 Remote Control

Benefit from the immense simplification and enjoy this smart new way of taking digital impressions.

* only for CS.Nova^{Pro}

Optical Status Indicator

You
CAN
touch this!

We don't want to show off, but OMG is this thing fast!

Booting up your smart phone takes longer than scanning upper and lower jaw!

Love is in the air.

You will love the feeling of scanning freely, especially if you have been working wired up to now.

Let us unchain you!

technical support

free of charge

free from annoying license fees & service contracts

OSI - Optical Status Indicator

device status

displays current workstate and project assignment

Manufacturing

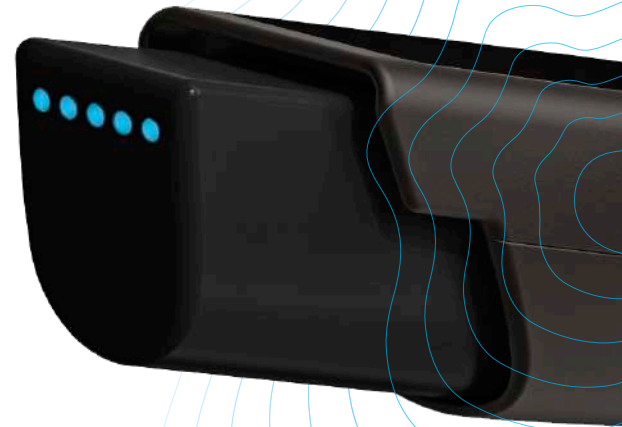

made in Austria

> 90% of components from Europe

100% compatibility with exocad

open system

Export data: STL, PLY

DEEP VIEW

For those who really want to be precise.

Deep View is a triple-cam scanning technique to have a deeper look into interdental areas.

* enormous focus range

QUICK SHIFT

Sounds like a dance but it's a feature.

The 180° rotatable scans tip enable precise scans at all points with each patient.

* 100x autoclavable

TIP DETECTION

Scan, switch, scan - nothing more.

Thanks to the automatic tip recognition handling the scanner is more comfortable than ever before.

* 3 different tip sizes (S, M, L)

MULTI PAIRING

One for all and all for one.

Easily connect the scanner to various devices and software solutions for maximum flexibility.

* multiple scanners with one application

Connection type: Wireless
Scan type: Color
Housing material: Aluminum

Length: 265 mm
Width: 37 mm
Height: 34 mm

Weight scanner: 220 g
Weight battery: 60 g
Weight tip: 10 g

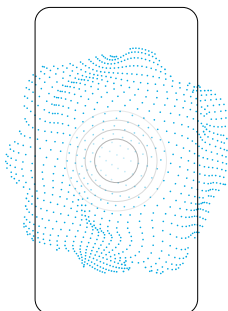

Battery runtime: 1 h
Battery stand-by: 8 h
Cases/runtime: 60x

LEAVE YOUR

on during the scan!

The touch display will still work.

SUPER TOUCH

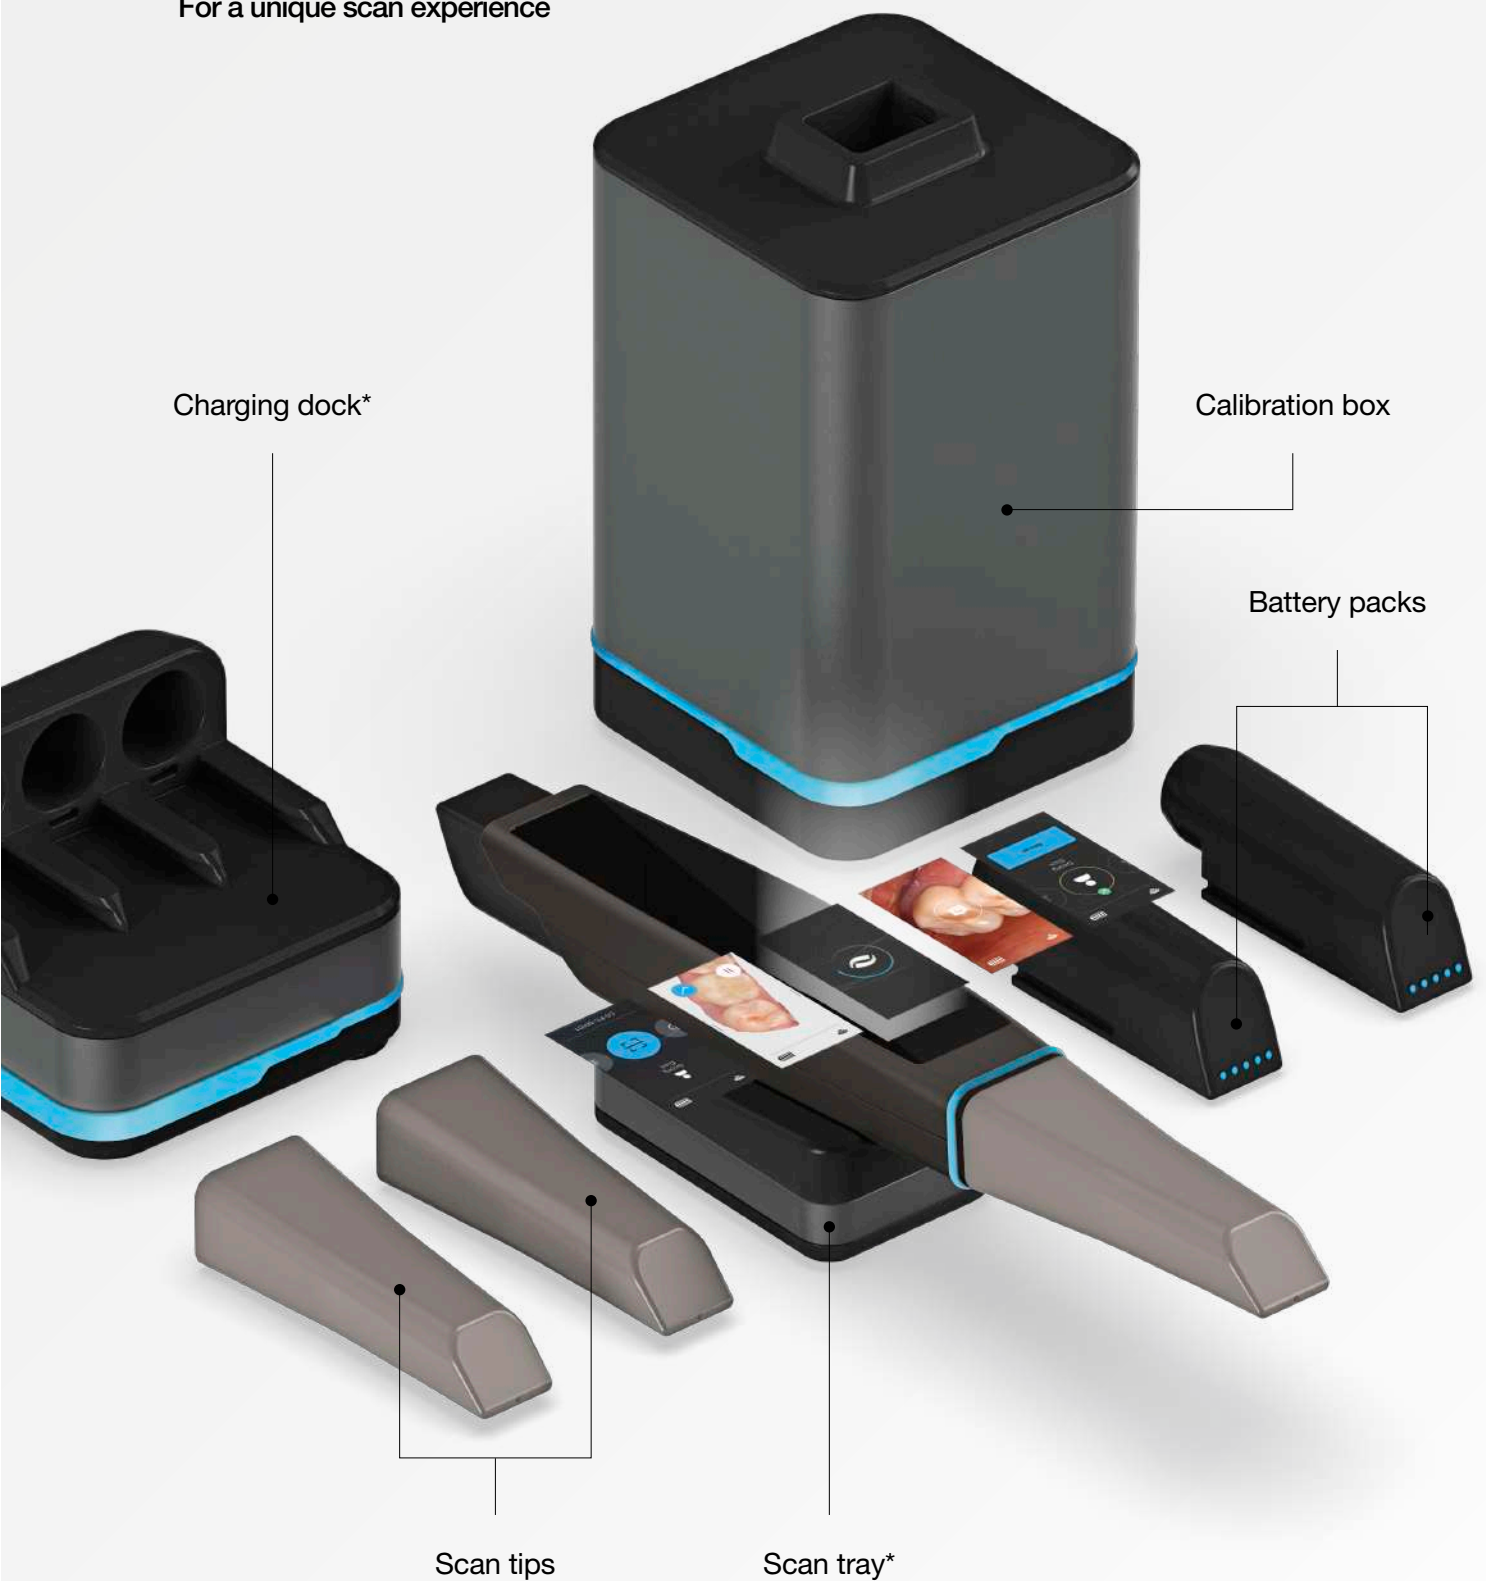

**Smart tech
inside**

Thanks to its huge power working
with the touch display feels like
using your smartphone.

Processor: Quad-Core-Chip
Framerate: up to 150 FPS
Resolution: 96DPI

Accessories
